

Dear Geneva,

It is hard for me to sum up our 19 years together in one note. My fondest memories together are when we would go sledding and put our feet in the koi pond. I always remember you made me put my feet in first to see how “cold” the water was. I am very happy you always showed me so much kindness and compassion even when we would sometimes disagree on things. In the end, we would always come to an understanding through our scooter races around the neighborhood. I also wanted to let you know your cat Nigel has such a great home. Our cat Peach likes to sing and I always assume she is singing to you. You were such a kind spirit and I am excited to see you again.

Love Always,

Ivy, Alex, Peach, Chef, and Remmy
